

08 – Roadmap to Physical Substrate

...

CURRENT (software + RCF bitstream file)

- live FPGA hot-load (A)
- minimal robot on body bus (B)
- physical ECR edge reopen (C)
- MF certify new matter → package → RCF hot-load
- persistent robot capability change
- multi-node fabric
- ASIC macros

...

****A19→A40 framing:**** fixed physical resources; ****effective organization**** changes by loading ****certi**
